

TESTING FACILITIES

If you have already **tested positive** for the Hepatitis C Virus or have been living with it for a while, you may be wondering what the next step is for you. Some of the agencies listed below can do the next set of tests. Ask them for a **viral load** and to have your **liver enzymes, ALT** and **AST** checked. This is a good way to start following your Hepatitis C. Please call agencies first, as information changes.
